Seeking a Full-Time or Part-Time Clinical Psychologist or Neuropsychologist licensed to practice in Massachusetts for a First-Episode Early Psychosis Treatment Program. This program is part of the Massachusetts Early Psychosis Network and is guided by the NAVIGATE model for Coordinated Specialty Care. It is situated in 2 CHA locations, one in Cambridge and another in Malden to serve a large catchment area that includes Cambridge, Somerville, Malden, Everett, and Boston's Metro North Region.

CHA's Department of Psychiatry is one of the primary departments of the Harvard Medical School (HMS) Department of Psychiatry. The applicant will be eligible for an HMS appointment at the Instructor, Assistant or Associate Professor levels, commensurate with HMS appointment criteria, candidate qualifications and commitment to teaching of HMS trainees from both a psychology fellowship program and adult psychiatry residency training program. Opportunities will exist for the successful applicant to participate in ongoing or new research projects integrated into the clinical care for each patient.

Responsibilities of the Clinical Psychologist include:

- Collaborate with RISE Director to provide coordinated care for each patient with each team specialist.
- Provide clinical duties that include conducting initial lifetime evaluations of new patients and contributing to a team-based diagnostic assessment and treatment plan for patients.
- Providing individual therapy using evidenced based care according to the NAVIGATE model of care.
- Participate in NAVIGATE trainings if needed.
- Provide Family Education and Therapy
- Co-Lead Group Therapy
- Providing supervision of psychology interns and post-doctoral fellows, and social work interns and fellows.

Candidates must be independently licensed PhD with a minimum of 2 years clinical experience with psychotic patients, with a preference for clinicians experienced or working with patients with early onset psychotic illnesses and their families.

CHA offers competitive compensation and a comprehensive benefits package including health and dental insurance, 403b retirement accounts with matching, generous PTO, CME allotment (time and dollars) and much more.

*Please contact Dr. Lynn DeLisi for more information and send CV:

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status,

protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.

Cambridge Health Alliance brings Care to the People - including your neighbors, friends and family. Our local hospitals and care centers serve our vibrant, diverse communities, and play an integral role in improving health. As passionate advocates for the underserved, we actively partner with our communities to take on challenging public health issues, and conduct important research to help reduce barriers to care. We believe that everyone deserves access to high quality, convenient health care. This is why our employees believe in where they work and why many build long, rewarding careers at CHA.

Healthcare is changing rapidly. CHA has a strategic plan that charts a proactive course for our future. It is built on a vision of equity and excellence for everyone, every time. It also recognizes that our workforce is our most valuable asset and prioritizes competitive salaries, benefits and professional development opportunities for employees. The strategic plan is changing the way we provide care and improving the health and experience of our patients; we are looking for smart, committed, compassionate people who want to be part of making our vision of better health and equity a reality.

At CHA, you can believe in where you work and go home every day knowing you made a difference. Join our team and help us bring Care to the People.
